

New album by Frame "Circles"

Frame from Gothenburg, Sweden is releasing Circles

The album has 11 songs that mixes groovy straightforward hardrock/metal with progressive influences

Available on CD/VINYL and Streaming

FRAME from Gothenburg - Sweden. Hardrock with influences from the 70's until contemporary. Shaping an unique sound since 1997. Originally formed by Robert Westin (vocals/bass), Kristian Kallio (guitars) and Andreas "Ragge" Ragnarsson (drums) who played together since the early 90's. The debut album "Framing our Audience" from 1998 received great reviews from local newspapers and fanzines. Frame shortly after expanded to a quartet and released the EP "A Locomotive" in the beginning of the new Millenium. The following album "Closer to the myth than zero"(2003) released on the bands own label Perpetual burn, received a great underground following thanks to the video from their first single "Forever Train" that was included in the cult PS3 game "The Darkness". The soundtrack also featured other top acts as: Marilyn Manson and Mike Patton. After extensive gigging around Sweden the band went into the studio again to record the EP "Bohus Sessions" that was recorded in the legendary Bohus Studios with producer Tobbe Lindell (Mustasch, Europe etc.) In 2015 Frame released their third EP "Undead" after which they recruited bassist/producer Johannes Olsson to the lineup. With newfound creativity writing sessions begun for a new fulllength album. The new album "Circles" released on 25th of May 2019 is undeniably Frames strongest effort so far. It is also the first Frame album that is released on Vinyl.
